COCONUTS USED AT CHEF'S CHOICE FOODS MANUFACTURER CO LTD

We, hereby confirm that all Chef's Choice products and all products manufactured and produced at Chef's Choice Foods Manufacturer Co Ltd, does not contain any animal products, animal bi-products and/or any products obtained through the abuse of animals or testing on animals.

Chef's Choice has been committed to being a fully vegan company since 1996. Ethical business practice is an important value in our company and we do not support or accept coconuts from farms that use monkeys or children to pick coconuts. A pole pruner is used to pick the coconut. We often visit the plantations to ensure this.
